

ARTISTS IN THE MIDDLE

6 7 8 CREATE!

WORKSHOP

DESCRIPTIONS

Participate in **FOUR** different art forms!

VISUAL ARTS WITH EVA

You will focus on the five elements of art: line, shape, color, space and texture. From simple to complex two dimensional works, you will learn to use a variety of art materials and techniques and through the art making process, you learn to observe, focus and develop your fine motor skills as you are empowered to take risks and make artistic choices.

CREATIVITY LAB WITH BOB & TEAM

Design and create a series of personalized projects using wood, metal, wire and other various building materials. Learn how to come up with ideas, create real products and bring your original designs to life. Learn how to use hand and power tools. Walk away with a collection of unique projects!

MIXED MEDIA WITH SAMANTHA

Explore your creativity through the art of mixed media. In this studio, youth will learn basic painting techniques as well as how to blend collage, acrylic painting, layering and sculpture to create unique works of art that incorporate multiple mediums.

CERAMICS WITH LIZBETH & REBECCA

Through clay, youth will focus on creativity and self-expression while being introduced to the fundamentals of hand-building and glazing. They will create original artwork and take home one-of-a-kind projects that reflect their personal style and individuality.

SESSION 1 ONLY:

COMICS! WITH JAVIER

Create your own comic book stories in this exciting and interactive studio! You'll participate in a variety of drawing exercises to increase your cartoonist skills, and create your own characters and comic book stories. If you like telling stories and you are looking for some summer fun, then join us and let's make comics!

TEXTILE PRINTING WITH IVAN

Through a variety of materials, you will explore and experiment creating designs that are applied to fabric and other surfaces to create a series of personal projects. Get your hands dirty and learn how to tie-dye, create stamps and stencils, and use light-sensitive paints.

DANCE WITH SEABREEZE OR SADIE

You will explore various movement styles including contemporary, hip-hop, improvisation, partnering and jazz. Highly driven by music and the current dance scene in LA, the workshop will investigate how movement can express an idea. You will learn ensemble choreography and create a final project (dance piece, music video or student choreography). No prior dance experience necessary.

DRUM RAP WITH EDITH

Explore Hip Hop and Rap music using drums and other percussion instruments. Create your own lyrics choosing positive quotes. Develop a sense of timing and coordination by making a set of rhythms!

FILMMAKING WITH KRISTY

We will work in small groups to create 2-3 short video projects. You will work with a team to create, plan, and film projects every day. You will learn how to edit movies using iMovie. On our last day, you will receive a DVD with all your final projects. Come join us as we have a good time and learn about making movies!

DIGITAL MUSIC WITH ESTEBAN

You are invited to make your own BEATS! Learn and explore a basic foundation in music theory using Ableton software to create beats, particularly through the lens of hip hop and electronic music. The possible creations through sound are endless! No prior music experience necessary.

SESSION 2 ONLY:

SONGWRITING WITH MYRA

You will explore the inner makings of a song through popular music of multiple genres (Hip-Hop, Country, R&B, Pop etc...) and be guided through your own song development by using vocals, instruments, improvisation exercises and creative writing. Using inspiration from your own life, surroundings and experiences, you will write lyrics to an original song both individually and as a group.

IMPROV WITH SEABREEZE

You will work to create characters and make up crazy stories at a moment's notice. You will play games, practice working in groups and use your creative imagination as you build skills to becoming an actor. Learn about the art of improvisation through theater games!
